What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class. This classification takes into consideration two elements: 1) the market risk - that rates the potential losses from future performance at level; and 2) the credit risk which estimates that poor market conditions could impact the capacity of the Fund to pay you. This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Other risks not included in the Summary Risk Indicator ('SRI'), itemised below, are considered materially relevant.

- Liquidity Risk;
- Property Values – vulnerable to political, legal and economic issues;
- Valuation Risk;
- Finance and Borrowing Risk;
- Economic Risk;
- Competition;
- Tax Considerations;
- Regulatory Risks;
- Income Risks.

Further information on the risks of investing in this Sub-Fund are available in the prospectus.

What happens if KMG Capital Markets Ltd is unable to pay out?

Investors are unlikely to face a financial loss should KMG Capital Markets Ltd fail or default. While KMG Capital Markets Ltd is responsible for management and administration of the Fund, it does not hold the assets of the Fund, including monies payable to investors. The Depositary is responsible for the safekeeping of the assets of the Fund. Investors may suffer loss, up to the value of their entire investment, if the Fund or the Depositary is unable to pay out. KMG Capital Markets Ltd has no obligation to pay out in this scenario and there is no applicable investor compensation scheme to cover any loss in such an event.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time:

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

-In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

-GBP 10,000 is invested

	If you exit after 1 year	If you exit after 5 years (Recommended Holding Period)
Total costs	GBP 370	GBP 1,776
Annual cost impact (*)	3.70%	3.70% each year

* This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be -14.10% before costs and -17.80% after costs.

Composition of Costs:

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	0 GBP
Exit costs	We do not charge an exit fee for this Product.	0 GBP
Ongoing costs taken each year		
Management fees and other administrative or operating costs	3.70% of the value of your investment per year. This percentage is based on actual costs over the last year.	370 GBP
Transaction costs	0.00 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	0 GBP
Incidental costs taken under specific conditions		
Performance fees (and carried interest)	A performance fee may be due to the AIFM, which may be paid to third parties at its discretion, per calendar month, equal to 20% of the increase in Net Asset Value per Share, (including any net unrealized gains and losses), after a monthly hurdle rate of 0.83% is achieved. Such fee will be accrued monthly and paid half-yearly. The Performance Fee is subject to a "high water mark" whereby any decrease in the Net Asset Value per Share of the relevant Class, subsequent to the most recent month in which Performance Fees were earned, will be carried forward until future increases exceed the amount of loss carried forward. The aggregated cost estimation above includes the average over the last 5 years. There is no carried interest for this product.	0 GBP

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

This Product has no minimum holding period, the 5 years have been calculated to be in line with the time frame which the Product may need in order to achieve its investment objectives.

You may sell your investment before the end of the recommended holding period. It is noted that the particular Wren Retirement Fund Class A GBP is subject to a monthly charge, equal to 0.0834% per month of every subscription amount received in the form of a Share Creation Charge and amortised back to Wren Retirement Fund on a monthly basis over a period of sixty (60) months from the date of each subscription.

Wren Retirement Fund Class A GBP is subject to Redemption Charge, between 5% and Nil, of the value of the Net Asset Value per Share as of the relevant Valuation Day for Redemption. This is calculated starting at 5% and reducing by 1% per annum calculated over a period of 5 years from the date of issue (subscription) of Shares. Such charge will be deducted from the Net Asset Value per Share as of the relevant Valuation Day for Redemption in favour of Wren Retirement Fund.

The section "What are the costs?" provides information on the impact of costs over time. Please refer to the "What is this product" section for the redemption procedure.
